January 28, 2022

The Trustees of the AGMA Health Fund want to make our Plan A and Plan A1 members aware of the following information:

On January 10, the Biden Administration issued guidance providing that group health plans would be required to cover the cost of FDA-approved over-the-counter (OTC) at-home COVID-19 tests purchased on or after January 15, 2022, subject to a limit of 8 per month for each covered individual. These tests are to be provided without participant cost-sharing, preauthorization, or medical management, during the public health emergency for tests that are intended for diagnosis or treatment (but not to include screenings for employment, school or recreational purposes).

Since this requirement was announced and made effective with little lead time, the AGMA Health Fund and Aetna are working together on a program to provide this benefit through the Aetna pharmacy program.

As soon as Aetna provides us with additional information, we will share the details on our website.

Aetna has also provided the following link with their most current information:

<https://www.aetna.com/individuals-families/member-rights-resources/covid19/otc-in-home-test-faqs.html>

### **FREE TESTS AVAILABLE**

Please note that the federal government will issue each household 4 free at-home COVID-19 tests. You can order them now at <https://www.covidtests.gov>.

Please continue to check the Fund Office website ([www.agmafunds.org](http://www.agmafunds.org)) for further updates.
